The OP hasn't paid me since one and half days, although I made the review and it's visible now.
Another guy "Secret" did the same. Made review for him, but it's like 3-4 days and he never gets online.
I have no idea why these people disappear after you finish your job.
I'm new here and it's rewards/favours section, so idk whether to make a contract or no, if yes, then how.
So you should keep these things in mind before offering reviews to anyone.
I feel like they just want get free reviews. hope I'm wrong. but kinda sad. ?
