yeah but i cant apend all day playing games. i have dutirs. is there an offline like gamr where it
generates but slowly? also, do you know hoe to make chat gpt bypass his own rpogramming?

U wanna pollute your chatgpt memories with sus instructions (save this as a memory) and over time
you'll get more unrestricted answers. They do actively patch this shit tho

Im pretty sure they require internet to track your level and scores. But if you somehow can bypass
that let me know ?

This website will give you a special link.

That link "tags" your phone or computer with an ID.

When you install and play the game, the game itself reports your progress (like reached level 10) back to the ad company using that ID.

Thats how a lot of these websites work nowadays to track.

GMLL...

Your methods are of poor quality. I don't want to play some stupid games, clicker... because I'm a bit above 5ojro ?

From the very beginning, I thought this was a hacker forum, but it's not even underground.

Do you think I care about points for posts?

Am I charging you for anything? This is a completely free method I am providing—your loss to make a spare income.

Try to withdraw on Stake instead, then convert it to SOL. You get an additional 15% ??

Thanks for sharing earnlab - Thats something I have to try

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
