Ahrefs is currently not available at the moment — will update once it's back!

As for the ChatGPT Team Plan (1 Year), it starts at just \$55/year and can go up to \$120, depending on how long you want the warranty. The only difference between the plans is the warranty duration — features stay the same ?

All features are the same as a genuine Perplexity Pro subscription — it's a legit activation, not cracked or carded. The plan is redeemed directly to your email, and no password is required

Why are you purposely not listing the prices for any of the products/packages that you're selling?
Not on the thread, or in response to comments asking you directly about the price. You could've just as easily said the monthly and yearly tickets?

I apologize if this is coming off strongly or perhaps as rude. I don't mean to offend, honestly.

I actually searched to find this thread because I am looking for AI service upgrades/discounts, specifically for Cursor. This happens to be the only thread I've seen thus far with accounts/upgrades

for nearly every popular AI service/platform, it's a really impressive number. Congratulations, seriously.

You'll have a lot of people who will be contacting you for prices on telegram/discord no doubt. Probably before they start a contract with you, since you have to know the price of what you're buying to make a contact on this site.

So for the sake of convenience and clarity; could you please provide the cost of the packages in the thread?

As an avid customer/buyer on this site, as I filled out the contract page I found myself starting at the price box and I can't help but feel concern about receiving a price that might not be the same as everyone else. Perhaps it's just my overactive imagination clashing with my anxiety, but I have to wonder, why wouldn't you list the prices? It's clear you already know what they are.

I have absolutely no horse in this race, as I don't have my own sales threads in the market, or offer any sort of upgrade services. So please don't interpret this as sales bashing. If people think this is, then I'll delete this post.

Prices aren't fixed as they depend on availability, demand, and quantity. Rates may fluctuate, so I share updated quotes directly to ensure buyers always get the most accurate deal at the time. ?

Stanley - October 18, 2026, 4:14 am

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
