Thread: [CRAT - Best RAT ever - HVNC, Keylogger, Stealer, Screenshare, etc.](#)

randomuser110 - July 26, 2025, 3:28 pm

Dming me here

DeathPenalty666 - July 26, 2025, 3:31 pm

what is crat? never hear of this, also what is the price? lack info af here

This is a poor attempt of s sales thread.

Atleast explain what makes your software different, and share the prices.

Also, these belong in marketplace section. And remember that contracts is a requirement for making deals through HF.

randomuser110 - July 26, 2025, 3:59 pm

it's \$50

you have image or video?

is it cracked?

Yeah, Best Rat ever ?? Reverse connection ?? Undetectable to most all AV ? Price, and how to pay you for it ?

Framework it's made from C programming language ? Targets windows I assume ? Is each client / server your offering

clean from you connecting to whoever runs the client app ? You know us in here would find out fast if your dishonest it would kill your sales and rep, but if its good

you build long lasting clients. Otherwise I'll just bang out some python / veil and custom reverse malware code in Kali Linux and stick to fast easy shells that evade AV , but if you have a nice UI ...

then many of us would use your rat, just because were all RAT freaks who enjoy good solid programming work

making evasive threat actor tools.

DeathPenalty666 - July 26, 2025, 4:44 pm

so its a Async like modded rat as i can see

randomuser110 - July 26, 2025, 4:45 pm

Look closer (like the port)

Zing!

Etc? Sounds like OP doesn't know his RAT or how to make a sales thread.

Uhm so what happened here? Why did [mention=3297465] became the OP of this thread?
