Thread: [BullPen Crypter Service | Bypass WD,Smartscreen | All AV's 0-3](#)

BullPen - July 28, 2025, 12:32 am

? BullPen Crypter – Advanced Payload Encryption Service

Welcome to BullPen Crypter, a premium encryption service designed to secure your payloads using a custom-built crypter that offers long-lasting FUD (Fully Undetectable) performance. Our solution is engineered to evade modern EDRs and antivirus systems effectively. We also support DLL sideloading, enabling seamless SmartScreen bypass upon execution.

? Key Features:

? Supports all major RATs

? Native & .NET framework compatibility

? Advanced polymorphic stub

? Multi-layer encryption engine

? Anti-analysis and sandbox evasion

? EDR & behavioral detection bypass

? Signature-based detection evasion

? Encrypted C2 communication channel

? Advanced injection techniques

? Process targeting support

? Integrated custom packer

? DLL sideloading support

? UAC bypass techniques

? Optional icon support

? Supports both x64 / x86 architectures

? Pricing:

1 Week Access – \$25 (15 Crypts)

1 Month Access – \$100 (Unlimited Crypts)

3 Month Access – \$250 (Unlimited Crypts)

Lifetime Access – \$500 (Unlimited Crypts)

? Payment Method: Cryptocurrency only (BTC, XMR, USDT, etc.)

? Vouch Copies:

We're offering 3 vouch copies to selected, reputable users for feedback and credibility building.

? Terms of Service (TOS):

This tool is provided for educational and research purposes only.

The developer is not responsible for any misuse or malicious deployment of the encrypted files.

No refunds – All purchases are final.

Ongoing support is available for any crypting issues or compatibility concerns.

Jeep - July 28, 2025, 2:11 am

The site you scanning files doesn't share samples straight to AV Vendors?

BullPen - July 28, 2025, 5:56 am

I'm not sure if they distribute like virustotal.

alibobo360 - July 28, 2025, 10:20 am

it costly bro why not bring down the price
also is it webbased crypter?

What is your mode of payment, and secondly why would you dispute a contract I did not receive payment for? Kindly close the dispute and resend another contract to add the address to it.

alibobo360 - July 29, 2025, 6:26 am

send me a dm bro so we conclude our contract am unable to send dm

BullPen - July 29, 2025, 6:47 am

Same here since we are not both upgraded, message me on tg: [deleted]

Cancel the old contract and re send a new one and add your link to you .exe file into the contract.

(Jul 29, 2025 06:47 AM)BullPen Wrote: [\[CITE\]](#) Same here since we are not both upgraded, message me on tg: [deleted]

Cancel the old contract and re send a new one and add your link to you .exe file into the contract. Unless you're an upgraded member, you can't share off-site communication handles.

that guy is a fraud i paid him for crypting but instead of crypting my file he sent me his own file then he changed my rdp password thinking its my main rdp

you guys need to ban him from your channel so he won't keep targeting your members

BullPen - August 1, 2025, 2:42 am

I encrypted your files, and when you said it wasn't working, I redid it for you. You never provided any proof that the payload didn't work on your panel. I even offered a refund and sent your money back. If you can prove there's a backdoor in my files, I'll give you \$50 right now to prove me wrong.

alibobo360 - August 1, 2025, 3:11 am

i recovered my rdp even thou the rdp didn't sign me out so i guess it may not be him

as i have just check through process hacker and didn't see any injection yet so i guess he is clean

travisconpros - September 1, 2025, 12:28 am

please share a demo using pdf icon and bypassing smart screen. if works fine we gonna have a deal

ikembaba2000 - November 20, 2025, 3:12 pm

Hello

Is your crypter good for XLOADER

How often do you refud,to avoid anti virus detection
