This is the tool to have. Excellent tool, the developer is super enthusiastic and doesn't hesitate to help if needed. Everything is clean and functional+.

It's worth the price.

What could be better than a spammer created by a spammer?))

I recommend it with eyes closed.

To warm up brand new accounts:

- ? Simulates human activity without sending DMs
- ? Browsing timelines, liking posts, retweeting, interacting with crypto content
- ? Uses mimic natural actions (scrolling, liking, timing) to reduce detection
- ? Configurable activity levels - Slow & Safe / Moderate / Fast & Active
- ? Smart content filtering - Target trending, viral, or verified accounts only

The account will perform activities throughout the day based on your configured schedule. Start with conservative settings and increase gradually.

Now in BETA. Available for all users.

Another update!

Now introducing Warmup Extended (Beta+):

- ? AI-powered comments with selectable tone of voice (choose how your account sounds)
- ? More options for bookmarks & interactions
- ? Smoother engagement flow -> refined launch logic
- ? Cleaner UI feedback on what your accounts are doing

The goal: make brand new accounts look & feel 100% human faster.

First test accounts got great organic engagement on their comments, will improve the overall look and feel of your accounts!

Rolling out now -> all users can test.

Sneak peek at what's next:

We're working on the Engagement Module -> targeted boosts, smarter interactions, and tone profiles outside crypto (yes, even for Onlyfans managers who keep asking ?).

?X Encrypted DM Support UPDATE ?

We've updated to support Twitter/X's new encrypted chat system with automatic passcode handling.

What changed?

- ? Full compatibility with X's encrypted DM interface
- ? Automatic passcode setup and unlock
- ? Enhanced human-like behavior

Action required:

- ? New Users: Haven't set a DM passcode on X yet? Our system auto-creates it as: 0000
- ? Existing Users: Already have a passcode? Update it in the Authentication Section on our website
- ? Update your panel before starting your bots!

Questions? Contact support.
