Introducing this service after completing few cases offsite for complete website takedown.

- Service provides complete removal of websites from the internet, not just search engine hiding.
- The focus is on domain-level takedowns, making sites fully inaccessible.
- Targets include malicious, fraudulent, and impersonating websites. Use cases include brand protection, personal defence and legal issues.

Minimum Budget required is \$5k and may increase upto Six Digits depending on complexity.
Time taken to fulfil a request- 2 weeks to 5 weeks.

A TRUSTED MM (preferably Zexi) CAN HOLD FUNDS UNTIL REQUEST IS COMPLETED.

Note: Only taking requests with ethical justification like sites with scam/violation/illegal activity, etc
- Not all sites are eligible. Send me site address to confirm if it's doable and price quote.
