Thread: [Whats the toughest and rarest Award?](#)

Err0rX - July 31, 2025, 8:37 pm

Every time I'm here and see the users, one thing hits me:

What's the hardest and rarest award you've earned or know someone has?

For me, it has to be the ([King Decade](#)) award — it's the toughest because you gotta wait years to get it.

Deany - July 31, 2025, 8:52 pm

You right , KD hardest now if you don't got it already

Lefty - July 31, 2025, 9:54 pm

I only have a few years left to go. Like 6 haha

Yeah, no doubt it's really tough. You're lucky to have it, for real.

Good luck getting it — it's definitely a challenge

I say the toughest one is the 24k gold star since you need 24k posts to get it

I think it's easier than ([King Decade](#)). If you post more than 50 messages a day, you can get it in a year or less. Here are the AI calculations:

Posting Rates:

1 post per day -> about 65 years
12 posts per day -> about 5.5 years
40 posts per day -> about 1.6 years
50 posts per day -> about 1.3 years

So, posting over 50 times daily will get you there in roughly a year or less.
But for King Decade, you have to wait 10 years.

That's the only one award I have here ! :)

Does this really works?

I completely agree; there's really nothing you can do but wait. There's no grinding involved.

Yeah, 50 posts a day for a year straight? Good luck with that.

Fair, i do think 24k posts is the hardest award since for the king decade you can just come in once every half year but for the posts, you gotta stay consistent

What's frustrating is that some users got it without any effort, but a few of them ended up banned.

Not a big deal. Just give me time and a couple of ideas

Posting 50 times a day would be very hard imo and being consistent with it theres not enough threads/discussions nowadays to get that many posts.. unless its just low quality posting

Honestly, if "King Decade" didn't exist and I had a couple of really good threads to respond to, I think I could do it in like 0 to 5 years. King Decade you have to wait a full 10 years, either way. So yeah, instead of the 24k Gold Star being harder to get, it's easier ie. it's all dependent on your post-rate and of course the quality of your posts.

50 post a day isn't easy though. Actually, pretty tough.

In all fairness, it is easier - you've got a time-frame of 0-9 years to accumulate your posts,

Depending on your engagement speed, you can shorten your time-frame. But it is all wait the full 10 years, with [King Decade](#) you have no shortcuts

Lowkey - August 1, 2025, 10:34 pm

A girlfriend. I think that's the hardest award to get.

Yeah that one is definitely hard because you need to wait 10 years for it. But at the same time, it's guaranteed once you hit 10 years. Compared to other awards that need to be manually granted and can take longer than that

Yes, it is guaranteed however you can still get banned or forget your password and lose all your progress
