I'd say I'm really into strategic games, things like chess and golf. I like hobbies that make you think and plan ahead, whether it's out on a course or across a board.

Gaming, hunting, fishing, hanging with my pups, and going to concerts. Just to name a few.

It's kind of a strange hobby, but I enjoy it. I search for random names in the Department of Corrections inmate list of my state, and if the offense is significant enough, I then Google their names to read news articles of their alleged crimes and the court manuscripts of their trial.
