Pretty cool
Thats pretty cool ? ?

Capps - August 3, 2025, 5:12 pm
I cheated with my last username, I used a invisible character off the Microsoft char map.
Yeah, I was cool, I had a 3 letter username.

Dennis - August 4, 2025, 2:25 am
Font Awesome is so overused, though. Should have went with another icon lib.

Omniscient - August 4, 2025, 12:21 pm

Well, I do have an icomoon account too. We used some of those for the Hack Game. FA has been part of HF for years. Since V4 I believe.

Oh_Well - August 4, 2025, 2:00 pm
Terminal looks good in green ?

??
? [fa]terminal[/fa] SYSTEM ACCESS GRANTED [fa]terminal[/fa] ?
??

Mooooookie - August 4, 2025, 4:04 pm
I like this. These could be pretty useful in Sales Threads, to jazz them up a little bit if one isn't already using a graphic for the thread.

Where can we get a list of all the ones available?

It's overused bc of how awesome it is tbh.
Don't need to reinvent the wheel when you have a good icon set.

Dennis - August 5, 2025, 2:05 am

No, it's overused because it was THE goto back when jquery and bootstrap were still up the ladder. And people just stick with it. And nobody asked to reinvent anything. Nowadays embedding any lib is as hard or easy as FA.

Yeah, I know. I am just tired of seeing FA on every corner, especially on older sites. But that might just be me.

I just recently came across <https://lucide.dev/icons/> and thought it was pretty cool.

HF has a license for Lindua.

<https://icomoon.io/lindua>

As for things being overused, absolutely agree. The internet is mostly Wordpress, bootstrap, and Laravel. Nothing wrong with frameworks I suppose but everyone uses the same ones. Same goes with styles, fonts, and icons. That's why I try to run HF different, attempt it at least. People say HF looks "old", but I think I don't follow standards and just go with what I like. HF's whole space theme right now kinda cool imho. I like logging in everyday and feeling the vibe.
