Thread: [0 FRAUD SCORE PROXIES](#)

tekshop - August 1, 2025, 9:20 pm

0 fraud score proxies are rare to find these days. It seems like every vendor now only sells proxies with a medium to high fraud scores.

Well, that's where we come in.

We offer 100% 0 fraud score proxies - or your money back!

Having a low fraud score is crucial in everything you do on the web. The first thing a website or search engine sees when you visit their page is your fraud score.

Avoid captchas. Appear as 100% authentic, non bot, user traffic.

You can check your fraud score via [ipqualityscore.com](#) as soon as you receive your proxy - if the fraud score isn't zero then we will send you a full refund!
