Thread: [Whats your Favourite Number?](#)

HerrWinston - August 2, 2025, 12:16 pm

Hello yall, pretty random question indeed, but well i think there could be some pretty interesting answers to this question!

For me its 125 for many reasons which i cant fully list here, but you can do so many fun things with this number XD

Also do yall think there is an objectively best Number?

Oh_Well - August 2, 2025, 12:27 pm

I would say 7. It goes way back in history and culture and has deep psychological significance (thats why casinos chose 7 as well).

I guess I just get the number's vibe.

Why 125 though? xD

7 is a good number aswell! :D

125 has a long story with me and i can quite say everything because it would be too long, but that number has very mathematical ways of saying it imo many things to interpret!

For example 1 times the 100 and 5 times 5 is 25

$100 + 25 = 125$

$125 = 5 \text{ times } 1, 2 \text{ times } 1 \text{ and } 1 \text{ time } 1$

idk how to explain it ?

(Aug 2, 2025 12:36 PM)Oh_Well Wrote: [\[CITE\]](#) bro wtf hahaha ? I'm afraid to ask for more well its also like

$100 \text{ times } 1 + 5 \text{ times } 5$

$100 + 25 = 125$

and stuff like that, i just love playing around with numbers when i am bored ?

Also 125 sounds cool

$$1 + 2 = 3$$

you have 2 of 2 and use 1 for the calculation above and the other one for

$$2 + 3 = 5$$

so now you have 125 :D (i need help)

My favorite number is 13. For many people it's an unlucky number, but surprisingly for me it's always a lucky number. If I could choose two, it would also be 9, since everything in my life has something to do with a 9 haha

Radi - August 2, 2025, 1:25 pm

For me it would have to be the number eight since when you flip it sideways you have infinity sign.

My favorite number has always been 5.

Not really sure why, but it's stuck with me since I was a kid. There's something satisfying about it, clean, balanced, and bold without trying too hard. Weirdly, I've always associated it with the Toronto Blue Jays. No idea how that started, but whenever I think of 5, I picture that sharp blue and white. Maybe it's the speed, maybe it's the energy... or maybe I'm just wired different lol.

Haha yes exactly! There's just something about 5 that feels right, like it has a good vibe or rhythm to it. I totally get what you mean about associating numbers with random stuff too.

Hahaha yeah, I've heard that too! It's wild how some people feel like certain numbers just feel a certain way emotionally, like 3 might feel happy or 7 feels calm. Brains are weird and kinda cool like that.

midagaritten3gmail - August 3, 2025, 5:58 am

5, 7, 16, 35, 42, 69, 71

kinnu543 - August 3, 2025, 7:12 am

My favorite number is 9. In India people treat 9 as lucky number

K4RM4 - August 3, 2025, 6:04 pm

7. I grew up wearing number 7 in sports. And growing up playing sports, I was somewhat superstitious about it. Still to this day, I have to use pump 7 at the gas station, use cart number 7 when playing golf, etc.

That's awesome, 8 is such a powerful number too, especially in numerology where it's tied to infinity, balance, and success. Being born on 8.8 definitely makes it feel like it's meant to be part of your path. Do you ever see it show up at random moments, like a little sign or reminder?

Well, 4 years ago they opened a casino website in my country called 8888, I entered a raffle and won a PS5 +3 games (take on mind at that time there were no PS5 available for sale here)

That's insane luck! Winning a PS5 and games during the shortage? 8888 might really be your lucky number for life ? You should've played the lottery right after that!

Nice choice! 3 always feels balanced and easy to stick with, everything just clicks in threes.

Undead - August 6, 2025, 1:42 pm

Not really my fav but 33 is a interesting number. In Freemasonry, the 33rd degree is the highest degree within the Scottish Rite and its motto is "order out of chaos". Jesus was crucified when he was 33 and Jim Caviezel who played Jesus in the Passion of the Christ was also 33 at the time of the shooting of the film. His initials are also J.C., the same as Jesus Christ.

Mohammad Atta, one of the alleged 9/11 hijackers in the official 9/11 story was 33. And it goes on and on.

So, keep an eye out for the number 33, you'd be surprised how many times it pops up everywhere. It does seem to be a code for something.

9 also symbolizes completion. The end of a cycle, marking the transition to a new beginning. It's pretty nice if you think about it!
