It's working for me, that's odd.

You could email their support emails to get a working code:

- admin@oxaam.com, oxaam5@gmail.com

Or you could try using a different email address and trying to get a new code as well.

Best of luck

This is a great share. I'll probably end up paying for something from that site, especially for Netflix or Crunchyroll

Awesome!

I find ChatGPT Plus the most useful on the site,

But feel free to use it for other subscriptions too! (:

It is still working, you can get paid accounts.

goldenbanana - August 9, 2025, 5:39 pm

Someone already changed to something. I tried to change it back myself but get this:

Oops, an error occurred!

Route Error (400): {

"error": {

"message": "Too many failed attempts.",

```
"type": "invalid_request_error",  
"param": null,  
"code": "max_check_attempts"  
}  
}  
Try again
```

But still thank you I'm sure this worked for some at the start.
