I have explained you 10x times on how to do everything, but you don't know how to do it. You are asking me to create the audio files. You have to create your own audio files based on your purpose. You can use any basic text-to-speech. Your 1-day trial expired. I give you another day, and you still don't understand after explaining.

Jaypro2 - October 19, 2025, 9:37 am
