Your thread is a bit squished on mobile.
Are you going to add 1, 3 or 6 months?
Am interested

Also GLWS

I appreciate your feedback

(Aug 4, 2025 11:23 PM)ProfessorOak Wrote: [\[CITE\]](#) Are you going to add 1, 3 or 6 months?
I may add 6 months, if there is a demand for it, although my prices are already heavily discounted.
The lifetime offer is only available on HF at the moment and may be removed eventually.

I will let you know if price conditions change.
Take note that there is already a 75% discount currently applied to the subscriptions listed.

Can you please private message me if you do as well?
I am interested but a year is a bit of a commitment!!
How reliable is your service??

How reliable is your service??
Yes I will send you a private message as well.
I may consider adding 6 months as clearly there is interest in this particular amount of time.
As for reliability, I have deployed various methods that allow a 24-7 service.
All signals are of the highest quality and my API service is designed to allow users access to our analytical data such as being without rate limitations, or the usage of a simple POST request.

If you have any further questions, I'll be happy to reply with more information here or with direct messages.

SIM-2470866 - August 6, 2025, 4:40 am

Are you offering any trials? I would like to test it out first.
Is it like the same old, Signal Leaks?

Currently there are no free trials, but I may add some in at a later date.
I will inform you if conditions change.

To answer your second question, no these aren't the same recycled signals you see everywhere else.
My API provides custom AI-generated signals with custom algorithms and real-time analysis.
The signals are unique to my system and not based on leaked or redistributed content from other services.

Here is a quick look at the Premium+ Dashboard.
Everything you see and more is available in the API.

The dashboard looks good ngl.
Do you happen to have a trade sheet or history where we can see the bots predictions in action?
Would love to see some results

Here is an SQL export from my database, which is [available here](#) for a week before it deletes itself.
This is just one of the tables I use for dashboard display data, there are many more data points and tables involved.
There is also a live demonstration on the site that shows the current and overall confidence, total volume predicted, and overall accuracy, which I will link once I have the AutoBuy backend set up.

Right now, I'm manually processing orders for user feedback and QA testing. Everything shown in the live demo is available to free users.

The bonus DEX trading section (an unlisted feature) in the screenshot is still under construction, but it will eventually allow you to set trades based on Swaps AI predictions.

SIM-4446504 - August 6, 2025, 4:11 pm

i noticed you added 6 months! can you accept solana?? or no?

DNA - August 6, 2025, 4:23 pm

(Aug 6, 2025 04:11 PM)Troll Wrote: [\[CITE\]](#) i noticed you added 6 months! can you accept solana?? or no?

I do not accept Solana at this time.

I recommend using an exchange to convert the currency.

SIM-4446504 - August 7, 2025, 2:18 pm

i sent contract for buying please
will review too

my review:

the dashboard is very clean!

but seeing upgrade to premium+ buttons and seeing the screenshot makes me regret not getting that one

i can see the help section is very detailed too which will help me with my trading bot later but will see if i can manually trade a bit based on the dashboard info first

might update my review later on but so far am very happy with my purchase

i had to make an account first but op made that so easy

just copied and pasted my recovery code in my notes app for later

i like how i can refresh the data or let it sit and autorefresh is very helpful

thank you so much!!

time to make some cash money with this tool

That's great to hear, thank you for your review.
Let me know if there is anything I can do further to assist.

Updates:

I have finished adding in the free tiers which is visible on site.
Send me a Direct Message if you wish to retrieve the URL.

I will add Solana as a payment method soon.

can i get one or no cause i already buy it?

i have the premium and want the premium plus

I have increased your membership.

You will now see all the dashboard display items and higher API access.

I will not remove this from the vouch copies available, but because I added vouch copies after your purchase.
