Thread: [\[\\$10\] Left Over Inbox Exploit \[Custom Message Available\]](#)

Money- - August 4, 2025, 8:19 pm

Looking to sell off some left overs if anyone wants.

I got multiple domains for this.

Hits all inbox of course including gmail etc...

You can include your own message in it. Including HTML Tags

There's a company message along with yours below by the way.

Please take note and read on this. Is not my fault if you do not know.

Seem like people missed this.

There's a captcha on the page, you can't really spam with this but you can code a script to do it 1 by 1 or bypass the captcha yourself.

I am selling you a raw exploit version not some python script code to input ur message or whatever.

Example message :

[contract=tid]Start Contract[/contract]

ProfessorOak - August 4, 2025, 11:21 pm

What is it you are selling here?

Money- - August 4, 2025, 11:26 pm

Just some goofy stuff that allows you to modify and inject your own content into a company's mail message and allow you to send to any target via it.

Kids usually use this for phishing and some other stuffs.

It hits all email service , cause its legit from a company domain. Gmail etc.. or whatever.

Basically kids can send emails as microsoft and coming from microsoft domain legitly no spoofing and telling their victims to login their microsoft account like that.

I got many left overs i got no use anymore. Figure to see if anyone want this skid stuff.

Oh I see, thanks

Might be interested, will probably PM bit later

GLWS if not

No problem bro , hit me up anytime.

CyberGiggler - August 23, 2025, 10:38 pm

What does this typically cost?

Money- - August 23, 2025, 10:43 pm

(Aug 23, 2025 10:38 PM)CyberGiggler Wrote: [\[CITE\]](#) What does this typically cost?

\$10 for 1 domain my man. If you want 3 domains, I can give you \$20.

1 domain means from 1 company , 3 domains means from 3 different source/company aka different mailing company.

proxygod - September 14, 2025, 11:37 am

Hmu regarding this please. I have some questions

Unlimited bro. No limit. Send until you are crazy..

martigo333 - October 1, 2025, 3:58 pm

Does it come with SMTP that can be used from my own mailing software?

Money- - October 1, 2025, 9:02 pm

(Oct 1, 2025 03:58 PM)martigo333 Wrote: [\[CITE\]](#) Does it come with SMTP that can be used from my own mailing software?

Hey man , nah its actually a raw exploit that comes from a domain. You can only send mail via the domain. Enter your target email and enter your desired email using that domain and that's it.

Send anytime you want how many times you want. That's it , simple. Whatever message works and

hits gmail etc... cause is legit company domain no blacklisting etc... no spoofing or whatever. Cause is original.

No problem bro. Hit me up in PM/convo by then.

Stanley - *October 20, 2026, 3:43 pm*

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
