I think I'd choose Harry Potter.

I'd be into some Avada Kedavra shit ?

I'd go with The Lord of the Rings universe. The world is so beautiful, mountains, forests, little villages like the Shire. You've got elves, wizards, and epic adventures. It just feels magical and peaceful (well, when you're not fighting orcs ?).

Honestly, I think I'd go with being an elf, long life, sharp senses, crazy good with a bow, and always calm under pressure. Plus, those forest homes and elvish vibes are just too cool to pass up. What about you?

Haha yeah, can't argue with that! Female elves are next-level, elegant, powerful, and somehow always glowing. Definitely wouldn't mind being surrounded by that kind of energy!

I'm not going to lie to you, but the last time I held and lit a Roman Candle, I straight up said that spell right before each shot came out.
