Welcome to HackForums [notNine](#)

If not none, then ten? Or maybe eight? You can elaborate on that on another day, but either way we're happy to have you on the forum. Make yourself comfortable. Take a few minutes and read thru the [Help Docs](#), so that you can learn the rules of the site. May seem frivolous, but not knowing the rules can lead to a warning.. or even account closure, so to avoid this.. simply read thru the [Help Docs](#).

After learning the rules, consider [upgrading](#) your account. Only takes a few minutes, doesn't cost a lot, and the additional features and perks that come along with [upgrading](#), make it well worth the time taken to do so.

If you have any questions, or concerns.. feel free to ask away.

Later.

Welcome to Hackforums, [notNine](#) !

We're glad to have you join our community!

As you start exploring, we highly recommend taking a few moments to familiarize yourself with the forum. These resources will help you get off on the right foot:

Etiquette & Rules:

Read through our [Help Docs](#) to understand the forum's rules, etiquette, and features. This will save you a lot of trouble down the line.

Stay Safe! Protect Yourself:

If you plan on buying, selling, or trading on Hackforums, always remember:

Keep all deals on-site. Do not move to Discord, Telegram, or any other platform to finalize deals or discuss them further. If something goes wrong, staff cannot help you unless the full conversation happened here.

Use the [Contract System](#) for any deal, big or small. It documents everything and helps prevent misunderstandings.

Use a [Free Middleman](#) for added security. Scammers hate middlemen for a reason. Sellers can NOT refuse one!

Never send money or items before verifying a user's reputation. Even then, trust should be earned, not assumed.

If you have questions, Be sure to ask [The Academy](#) group! Plenty of members are happy to help.

Enjoy your stay, and again welcome aboard!

As for making money, my advice would be to automate something that people are looking for.
