Notepad++

You can watch the video there you see it. There is a better version on our website
For other needed Icons you can contact us.

(Aug 13, 2025 04:26 PM)DramaKing Wrote: [\[CITE\]](#) I will vouch that this looks good and seems like a good value. I assume that the DLL comes with a universal, EV-signed dummy app. You could raise the value by offering to inject the DLL import function into custom EXEs.

Thanks :)
