Thread: [CraxRat](#)

zunnu7254 - August 13, 2025, 11:38 pm

I have RAT Builder Software but I can give you free but you should tell me how to use it or it's working or not

DramaKing - August 14, 2025, 5:01 am

Better make sure that you haven't been hacked.

It's long dead, I'm sure. You'd just be throwing money away even if it was still sold.

i can help and tell you how to work

i can help and tell you how to work

realba3t - September 12, 2025, 3:52 am

i need craxrat

MadScientist - September 12, 2025, 5:36 pm

I can help you test it

I dont need RAT, thanks. Already have it.

But here you go..

You might be confused about c2 builder configuration

So in ip/host option: you can use noip hostname for longterm

Or for short time period use can integrate it with ngrok.

Create account on ngrok and set it up using your auth token and then run ngrok tcp 5555 (your port)

Make sure you have established proper port forwarding

Com Puer - November 30, 2025, 11:47 am

It's pretty easy to configure.

DM your issue I can give you solution.
