+ Vouch

Super easy method with no real investment at all, easy to maintain once the ball is rolling and has the option to be done solo or even scaled up with helping hands if needed

It's no risk, no real investment other than maybe \$5 if you don't already have access to a few things. It has nothing to do with EWhoring, affiliate marketing or anything like that and it's completely whitehat

As long as you have the time to put in the work (or can have others do the small bits for you) there is no reason why anyone couldn't have this as a nice monthly extra \$ earner

Side note - if you were willing to take it into a slightly grey area you could probably scale even further with a few smart tactics
