Welcome to Hackforums, [MrDrugs69](#) !

We're glad to have you join our community!

As you start exploring, we highly recommend taking a few moments to familiarize yourself with the forum. These resources will help you get off on the right foot:

Etiquette & Rules:

Read through our [Help Docs](#) to understand the forum's rules, etiquette, and features. This will save you a lot of trouble down the line.

Stay Safe! Protect Yourself:

If you plan on buying, selling, or trading on Hackforums, always remember:
Keep all deals on-site. Do not move to Discord, Telegram, or any other platform to finalize deals or discuss them further. If something goes wrong, it will be harder to help or verify who you dealt with.

Use the [Contract System](#) for any deal, big or small. It documents everything and helps prevent misunderstandings.

Use a [Free Middleman](#) for added security. Scammers hate middlemen for a reason. Sellers can NOT refuse one!

Never send money or items before verifying a user's reputation. Even then, trust should be earned, not assumed.

If you have questions, Be sure to ask [The Academy](#) group! Plenty of members are happy to help.

Enjoy your stay, and again welcome aboard!

Nightingale and other people in a group told me they are active here.

I'm not really looking for anything. I have been on a few forums for different things and have known of Hack Forums but I never registered. Most other forums now are gone, but I am not really a gamer anymore.

I just want to network and learn. Have fun. I am sure there is some fun things to get into here. What are you seeking?

A user called MrDrugs who is new to 'Cybercrimes' Is wild xD

It feels likes a 50 year old trying to fit in with teenagers and using said slang.
