Thread: [Amazon AWS \\$10,000 Credit for Just \\$1199](#)

Kingdom - August 21, 2025, 11:14 am

AWS account with \$10,000 in credits.

Suitable for cloud infrastructure, development, testing, and deployment.

Amazon Cloud, officially known as Amazon Web Services (AWS), is a secure and scalable cloud computing platform provided by Amazon. It offers a broad set of on-demand services such as computing power, storage, databases, machine learning, and more — all delivered over the internet.

Pricing

- Price: \$1199 (one-time)

Note: 0–50 credits may be pre-utilized on AWS accounts to warm up the account, ensuring it is ready for use upon delivery.

Payment Methods

- We accept all cryptocurrencies like USDT, Bitcoin (BTC), Litecoin (LTC)

Refund Policy:

Refund issued only if the setup or delivery is not completed

No refund once verified access is delivered and working

Support provided for initial configuration and access

Delivery :- 1-4 Hours after payment confirmation

Send me a (DM) here or reply to this post

After payment, you'll receive full instructions and your AWS credit account
