How Vikas Gupta's Telehealth Revolution Is Redefining Healthcare Delivery

Vikas Gupta led a three-pillar Telehealth revolution—In-Patient Video Visits, Tele Critical Care, and AI-powered Virtual Sitter—to improve patient care, safety, and ICU oversight. His agile leadership and enterprise-scale execution reduced risks, boosted outcomes, and set new standards in healthcare digital transformation, positioning Telehealth for AI-driven growth.

Patient convenience is front and center.

Nobody likes long waits and travel.
