US Commerce official buys Bitcoin as Trump tariffs shake markets

US Secretary of Commerce Howard Lutnick has been scooping up stock in companies that could benefit from tariffs, as well as investing in Bitcoin funds.

Bitcoin is a steady support, i think everyone should buy either btc or gold

JoseMar - September 2, 2025, 8:55 am

A Commerce official investing in Bitcoin while tariffs are shaking things up... that's a bold move. It kind of feels like they know something we don't, you know?
