Ya [DemonAsylum](#) is the only person to buy bytes from on HF. I've purchased bytes from him numerous times, always smooth transactions.

It's 1,000 for L33t and 5,000 for Ub3r. They got raised a few months ago. Before that it was 500 for L33T and 2,000 for Ub3r.

Yeah, you're right about getting 5k with Ub3r. I upgraded two days ago and didn't even notice I'd received it.
