Tokenized alternative funds jump 47% to \$1.7B in 30 days

Ethereum leads tokenized institutional alternative funds with \$1 billion in value, accounting for more than half of the market.

Crypto is king! Its getting bigger and bigger!

jcole - August 31, 2025, 9:29 am

Still waiting for that huge pump for Ethereum.

sharn - August 31, 2025, 9:37 am

Interesting read. Shows how fast crypto is integrating with traditional finance.

JoseMar - September 1, 2025, 1:02 pm

A 47% jump in 30 days is not a small number. The whole 'RWA' thing has been mostly talk for years, but maybe it's finally starting to happen for real. Seeing some actual traction.
