Thread: [Whats Your Current Status For The Stanley Fan Award Goal?](#)

Mooooookie - August 31, 2025, 12:28 am

As some of you know already, Omni has introduced a new Award Goal.. for the Stanley Fan Award. Was just wondering what's everyone's current status towards reaching the Award? I've posted my current status below, feel free to share yours.

Learn more about the Stanley Fan Award: [here](#)

Check your status towards achieving the Award: [here](#)

My current status:

Eran - August 31, 2025, 1:09 am

I'm at 80% which is quite the surprise. It obviously already calculated the past year whereas I originally thought the countdown would start from the moment the award was announced. Guess I should go get it before the stats reset :P

Yakless - August 31, 2025, 10:04 am

I am riding at a solid 2% lmao things aren't looking good for me

Squixey - August 31, 2025, 12:15 pm

I'm at 10, so really a long way to go haha

?inimalist - August 31, 2025, 2:15 pm

9% hehe.

Wait, what? You already knew this Award was coming? 80% isn't bad.. I'm guessing you'll have it before the holiday weekend is over.

Gotta start somewhere! Just try and knock out a few replies to Stanley threads everytime you visit the forum, and you should be moving along just fine.

Try and knock out 10 a day, and you should have the Award in about one week.

It's better than being at 0% - you have a head start on a lot of other users little do you know.

Your progress got reset a lot because Omni purged lounge threads, thanks to tattletale [Chrome](#) !

No worries, I lost my 58% too... lol. Somehow now I'm at 5% But to be fair, I wasn't sure how I was at 58% in the first place. Was the initial numbers everyone had a glitch?

Ohhh.. so that's what happened. I was wondering wtf happened. I just checked it, and I'm like how the f#ck am I at 5% when I was just at 58% yesterday?

Did users who received the Award, lose their Award? Or were they allowed to keep them? I had a feeling something wasn't right, because I didn't know how the hell I was at 58% ...nor could understand how some people already had the Award, and the Award Goal just started. Haha. It was nice while it lasted.

Others are striving for their dreams, while I'm striving to sleep a little longer every day. It's all about being realistic

Forget sleep.. I'll get all the sleep I need when I'm dead. For now, I'll continue chasing that bag. The money bag that is. ?

Yeah it was from all of the daily check in threads and the byte flip threads. People that are mad at me can cry all they want, I'm fair and let Omni know about a bug. I assume those that got the award already will keep it.

How much are you currently at?

This will be a slow grind, not one of those ones that I achieve within a month.. as we have 365 days to get the 250 in.. so no rush. I could get the Award in the beginning of next year sometime, and I'll be OK with that.

currently i am holding strong at 0%, i really never replied to those threads and i dont think i will, i dont care that much about the award

Jamika - September 6, 2025, 9:16 am

I know that the count was reset for some or reduced, but I only learned yesterday that only one reply per thread is counted... this will indeed require more threads.

I suppose I misunderstood your previous comment, you said something along the lines of that explains how you got your percentages together? Thought you were implying the percentage on the progress?

I'm pretty sure it was reset for everyone, except for those who were already at 100% - so if you were granted the award already, you didn't have to worry about it being taken away from you. which is fair imo.

But yeah, it's only the first reply that counts.. I'm sure that was put into place, to prevent people holding conversations on one thread, in an attempt to increase their percentage. One reply, per thread evens the playing field.

The truth is, I felt excited at first... I entered the award and was surprised to see that I had achieved 100% of it... so I thought there was some mistake, which is why I spoke with Omniscient. I didn't know that I had actually achieved it. Maybe the situation would have taken me two or three months—I'm not lying... but surely I fight for any prize related to participation because I really enjoy that.

I mean the ones before everyone was set back to 0 haha, i dont have any right now but before the back i had like 80% done ^^

Vectura - September 7, 2025, 9:01 am

Actually, 0%, didnt build on the trophy haha

Ohhh, OK. Makes sense now. :)

Yeah, that reset really made a difference. I was super motivated when I was at 58% - and now while not completely unmotivated, just not super motivated as I originally was. I will reply to like 5 of his threads a day, when I remember.

No worries brother, we all have to start somewhere. 365 days is a long time to get your numbers up.

P??sonl?af - October 3, 2025, 2:23 am

I'm at 25% at this moment. But with the October fest going on I hope that drag this one in as well. :)

Yanix - October 13, 2025, 5:49 am

Got my award last October 3 and would like to try for another Octoberfest award but maybe will start to grind again this coming weekend.

RangoWorld - October 13, 2025, 9:18 am

I have made little progress. 9% currently. Maybe I'll get there in some months.

Oh_Well - October 13, 2025, 9:39 am

Still 35% but I'm getting there!
