7 Meme Coins With Potential to Recreate Pepe Coin's (PEPE) Hype in 2025

Meme coins are set for another explosive run in 2025. Safe bets like ApeCoin and Dogwifhat offer stability, while Pengu, Floki, and Toshi mix meme culture with utility. Fartcoin thrives on absurdity, but Little Pepe stands out with real infrastructure: a Layer-2 chain, presale success, and Certik audit. Analysts see it as the top contender to recreate PEPE's viral surge.

Yin Yang - August 31, 2025, 9:07 pm

I don't have much exposure to meme coins atm

Charlie Sheen - August 31, 2025, 9:11 pm

I get the extremely high upside of meme coins but it's almost lottery odds these days. So many scams.

Yanix - September 1, 2025, 12:43 am

If Little Pepe follows the similar hype cycle to Shiba Inu or Pepe Coin this one could be a good one to invest.

Eran - September 1, 2025, 1:58 am

One day when I make fuck you money I might just invest some of my time into these shitcoins.

JoseMar - September 1, 2025, 11:39 am

It's a total gamble, right? Maybe one of these has some real potential, but trying to pick the winner feels impossible. The line between 'utility' and pure meme is getting so blurry.
