ADULT REDDIT CHATBOT

Automate and Funnel Reddit Traffic:

- Automate your PM Messages
- Uses external API to certain supported LLM modules
- No restrictions on amount of conversations
- Flirt and Role-play with your users
- Safe and easy way to funnel traffic from your Reddit accounts
- Browser Extension based app

Key Features: (Current Beta version)

- Fully Automated.
- Set chat Tone or let the system adopt to user chat responses.
- Set outcome rule (send external link, get user to follow your links in profile).
- Outcome rules are set based on X amount of conversation + Desire level based on user chat.
- Delayed responses, human like conversation and tone based on user tone and text style.
- Uses specific compatible external API's (NOT CHATGPT!!!!) to generate conversations.
- Run on multiple Reddit Accounts the same time (limited to 10 per license), depends on your limits with external API credits.
- Send Images to users, limited to specific amount and algorithm.

Currently a Beta version, more features and improvements will be added later.

Cost \$250 once off, Can run 10 Reddit Accounts the same time per license.

If you require more information, send me a PM, don't ask me to send you a PM. I dont provide any trails, this is a developed app compatible on Chrome, Firefox and Brave browsers. Tested and working on Dolphin-Anty and Undetectable.
