Trump Media closes Crypto.com deal to build \$6.4B CRO treasury

Trump Media said it would purchase 684.4 million CRO tokens as part of a deal with the exchange following a joint venture to create a crypto treasury.

Awesome! BTC SOARS!

BUY NOW!

Moookie - September 7, 2025, 6:53 pm

Trump throwing around his wealth as normal, are we really surprised?

Market analysts project that Bitcoin could reach \$130,000 by year-end as regulatory frameworks solidify, though this will likely be driven by broader institutional adoption trends rather than specific altcoin partnerships. The Trump-CRO deal may contribute to overall crypto market legitimacy, potentially creating positive spillover effects for Bitcoin adoption.
