Thread: [Custom malware dev \[HVNC, CRYPTERS, LOADERS, C2\]](#)

Maur0 - September 9, 2025, 8:10 am

Hello, since a lot of people contacted me privately for malware dev on the past related to my threads, I wanted to make a thread offering the service.

My malware posted and dev:

<https://hackforums.net/showthread.php?tid=6301122> (Fast C2 golang)

<https://hackforums.net/showthread.php?tid=6283973> (Anaconda Stealer web panel based)

<https://hackforums.net/showthread.php?tid=6267041&highlight=HVNC> (HVNC coded on C++ old thread)

For more malware threads you can visit my profile

What can I offer you?

Loaders/C2

Stealers for the new browsers versions + cookies checkers

HVNC web panel based/vps hosted

Private stubs to bypass AV/EDRs

Clippers

Smooth UI design for the software

Any other question you can contact me privately

Payment methods: Cryptos
