Robinhood's S&P 500 debut extends crypto's reach to index investors

Robinhood joins Coinbase in the S&P 500, expanding crypto access for index funds, pensions and institutions amid rising institutional interest.

Big move, Robinhood hitting the S&P 500 means crypto exposure is basically baked into index funds now.

Charlie Sheen - September 9, 2025, 4:58 pm

After the shit Robin Hood pulled with \$GME back in the day, I won't ever do business with them.

sharn - September 14, 2025, 8:28 am

This gives Robinhood big legitimacy.

But it also pushes crypto risk into pensions and retirement accounts.
