[align=center>Welcome to IG MASS DM

Your new method to advertise your business, getting sales and new leads on Instagram, Telegram, Discord and Twitter!

What is Mass DM and how does it work?

IG Mass DM is a service that can be used by anyone who's interested in organic growth, getting new leads or sales on all of the biggest social medias in the world! Our team will send messages from our Instagram accounts to promote your main account. The message will contain a link to your profile/post and a text message with a call to action based on your request. In the messages you can promote your account, send giveaways to potential clients, send special offers and more!

What's the process?

1. After the purchase you will give us all the required information that was needed such as target audience, profile/post to promote and custom message with a call to action (we can guide you here).

2. We'll scrap your target audience based on your request.

On Instagram we can scrap followers, hashtags, location. On Telegram we can scrape public groups based on your request and on Twitter we can target followers.

3. We will send the DMs to your target audience!

Prices are starting from:

Instagram Mass DM + Push Notifications: (99% REQUESTS FOLDER)

From 100k DM's: \$1.6 per k

From 250k DM's: \$1.4 per k

From 500k DM's: \$1.1 per k

From 1M DM's: \$0.9 per k

From 2M DM's: \$0.8 per k

From 5M DM's: \$0.7 per k

What are the payment methods?

We accept all the main cryptocurrencies

How long do orders take to process?

It depends on our schedule and the scraping. Usually it takes no more than 24-72 hours.

What's the refund policy?

We can guarantee that we will send out your order. Otherwise we will refund you!

Do you work with SMM Panels or resellers?

Yes we work with many SMM panels, there's an option to connect with API.

Text us if you're resellers for long term cooperation!

There's no such thing as mass dm that goes to inbox, both accounts have to follow each other in order to the message to reach the inbox.

We aim for request folder, if the other supplier you worked with didn't provide good results it means that something was wrong with the campaign, feel free to contact me if you want to review it and see what was wrong.
