Thread: [Happy Thursday, almost Friday](#)

**Hackers** - September 11, 2025, 5:16 am

Happy Thursday HF - It is almost Friday!

I love mornings like this. I woke up and didn't need a coffee to get going. It's going to be a productive and great day for sure.

Going canoeing tomorrow so I'm psyched to be on the river but if it's too cold we're going to do a beach or park day with the puppy i think.

What are you all up to?

I've procrastinated all day and about to start being productive. It felt like a Wednesday up until I saw this thread.

i was so tired that i replied to my own old thread saying Friday, not realizing the contradiction of this thread being for Thursday
