Dying Light: The Beast Launch Times Revealed, Release Date Moved Up

Dying Light: The Beast is no longer releasing on September 19--it's now coming one day sooner. Developer Techland said it's moving the date forward by 24 hours, to September 18, to celebrate The Beast reaching 1 million in pre-orders. The studio also revealed the exact global launch times."This inspired us to push our boundaries and make the impossible possible," the developer said about preorder numbers. Additionally, Techland said everyone who preorders will get an in-game reward, with details to be announced later."We pushed ourselves to make the impossible possible, and that's why we're releasing the game a little earlier. I can't wait to see players' reactions when they finally step into the world of The Beast," Dying Light boss Tymon Smektala said.

I really enjoyed Dying light 1 but was really disappointed by dying light 2, the combat mechanics and the game itself was just a mess, nothing like the first one. I hope this one is going to be like the first one. I bought part 2 for my PS4 and was really let down...

Techland talks like they are pushing boundaries, but we have heard that every release cycle. Actions on launch day will prove whether they are serious.

I might pick this one up. I loved DL1 but skipped 2 after hearing everyone complain. The gameplay here looks more like DL1.

Only other PS4 game sequel I think that was as bad as DL2, was The Last of Us 2. Glad I nvr bought the last of us 2, I had it on a free gamefly trial and did not finish it before returning it / canceling my free trial. I have NO desire to play it again... ?

Stuck with DL2, Maybe I will give it another shot, prob not... lol

Based on what I've seen for this game so far, it looks really solid both in terms of performance and

the actual game itself. This is definitely something I'll be picking up at some point. The question is will I pick up Dying Light 2 and play through that first.

Moving the release up a day is unusual but a clear nod to strong pre-orders. Fans now get earlier access, and the pre-order rewards add extra incentive.

Looking forward for this drop tbh!

The last Dying Light came and went away silently, it's this one that has my attention. Especially with the Beast gameplay and return of Kyle Crane. So, excited for this :)

I really liked the first game, but the 2nd left me dissappointed.

Can't say I am excited for a 3rd.
