Thread: [Octoberfest award 2025 - Pumpkin color predictions](#)

Bastille - September 13, 2025, 4:27 am

It's already been a year since the previous thread :

<https://hackforums.net/showthread.php?tid=6279272> , I think it's time to make our predictions for this year

Hope Omni will maintains this event.

In case you're not aware about it, it's an event where you can win an award just posting enough on the forum, be careful tho, rules still apply, avoid LQP, spam, and so on. The event starts October 1st and ends the 31th of October.

Here are the previous awards :

Octoberfest 2021

Octoberfest 2022

Octoberfest 2023

Octoberfest 2024

For the 4th event (in 2024), Omni included threads as a requirment to get the award (30 threads). Since the first edition, the requirments have been increased. Last year they were :

- Make 600 posts and 30 threads to earn the Green Pumpkin award.

700 posts could be manageable if he keeps increasing the requirments, but more than 30 threads would be hard if we want to avoid low quality threads in my opinion.

I also think that we will only have 6 pumpkins, because if we continue to increase by 100 every year, over 1000 posts in one month would be ridiculous / insane.

So what do you think the next color will be ? Do you think you'll be participating this year ?

I would love to see a Black Pumpking this year, maybe with orange mouth and eyes ? And maybe a gold one for the 6th (that could be the last one)

Black will be nice

?inimalist - September 13, 2025, 4:51 am

Black obviously

Fish - September 13, 2025, 6:24 am

I feel like a white one would be pretty cool

Eran - September 13, 2025, 7:24 am

It being the 5th year and 5 years is usually a milestone. Gold would be fitting.

I would like red one.

jcole - September 13, 2025, 9:24 am

Not sure what I would want the pumpkin to be colored this year, but hoping the requirements are not to far out of reach. I'd really like to add the 2025 pumpkin to my accolades of awards.

Popular - September 13, 2025, 9:30 am

Voted gold, although I think maybe it'll be a cool orange color xD

Northern Lights - September 13, 2025, 9:36 am

I cannot vote yet but definitely going to say gold!

Cap - September 13, 2025, 10:21 am

Black or gold would be awesome to matchup with the 4/20 leaves.

tonyy1 - September 14, 2025, 7:00 pm

Pink 100%

Moookie - September 14, 2025, 7:22 pm

That one is better design-wise but it takes away from the OG look of the award :/

Omniscient - September 16, 2025, 3:39 pm

I cleaned it up some. Any better?

dock3rm0del - September 17, 2025, 12:48 am

Black obviously

DarkLo - September 17, 2025, 1:27 am

black looks like it will look nice although im not very found of the ones ive seen so far proposed in the thread. hopefully one of the graphic artists on the site can whip together something nice

xadamxk - September 17, 2025, 3:01 pm

I have the different variants somewhere around here. Might have to search discord or github but I remember seeing a crimson version that was pretty cool.

sn1perb0nd - September 17, 2025, 4:13 pm

off-white would be a nice colour. like a creamish colour??

Mix - September 19, 2025, 5:13 pm

I would like to add my call of white or red this year. I must also add maybe this year we might see a space edition due to the changes of GFX used on site recently. Or a more tech outlook on the pumpkin maybe?

P??sonl?af - October 3, 2025, 2:17 am

It ended up being silver what not alot of people voted for.

Seems like black for the popular choice. If only someone made a cool looking black pumpkin and it got used.

Oh well...
