Thread: [Stripe/PSP Rental](#)

Spearmint - September 15, 2025, 6:11 pm

I am reaching out to connect with innovative digital product and service providers who are achieving success in the online marketplace but may be encountering obstacles with payment processing or accessing traditional payment gateways.

I offer reliable, tailored payment gateway solutions designed to empower your business and support its growth, regardless of your location—including regions often deemed "unsupported" by conventional providers.

Key Highlights of This Opportunity:

Seeking 3-5 strategic partners for collaboration.

Ideal for established digital sellers excelling in their online ventures.

Global compatibility, including regions with limited payment infrastructure.

No complex requirements such as LLC or SSN—just your thriving business.

To clarify, you will not be required to pay a setup fee like some providers. Instead, you will seamlessly integrate with our existing payment service providers (PSPs) and pay a percentage-based fee.

If this aligns with your business goals, please feel free to send me a private message to discuss how we can collaborate to elevate your success.

Please feel free to contact me on Telegram: @Crucial0269
