PayPal to integrate BTC, ETH, PYSD in P2P payment push

The payments giant is rolling out PayPal links and direct crypto transfers, letting users send Bitcoin, Ether and PYUSD to friends, family and external wallets.

Oh.. so they're bringing back Liberty Reserve?

peldon - September 16, 2025, 10:49 am

Very good news !!!

Calibur - September 17, 2025, 4:29 pm

Great now they can also hold people's crypto funds too.

Yin Yang - September 17, 2025, 4:52 pm

Is this new? I thought they already had this enabled

Deany - September 17, 2025, 4:53 pm

Yeah I thought this was old news?

Yanix - September 17, 2025, 6:09 pm

It's wild to see PayPal, once skeptical of crypto, now embracing it fully. The shift in finance is happening fast.

Motusora - September 17, 2025, 6:15 pm

with HUGE fees as usual .

nah , hard pass XD
