If you have the capability to cooperate, please message me. I need to test first to see if you can achieve the results I require! The salary is beyond your imagination!

I'd be happy to discuss your SEO goals and run an initial test to show what I can deliver. Could you share a bit more about the website, target audience, and key metrics you'd like to improve so I can prepare a focused plan?

Looking forward to hearing more details.

;)

Are you looking for outcome based work, or effort based work?

Outcome example:
Your page is now ranked on first page

Effort example:
You now have X backlinks, but your page might not be ranking
