Thread: [Favorite SQLMap evasion scripts?](#)

MadScientist - *September 19, 2025, 8:26 pm*

For those of you who use SQLMap, what are your favorite go-to evasion scripts (--script=) for bypassing WAF's and getting through their security? Going to set up a VM web server and try various WAF's to see what works where but would love peoples first hand input in the meantime :-D
