Thread: [ASTER | BINANCE'S HYPERLIQUID JUST CAME OUT](#)

HACKED - September 20, 2025, 1:56 pm

Platform: <https://www.asterdex.com/>

The platform is similar to hyperliquid but is being shilled by CZ.

ASTER Started trading 3 days ago. Price is rising really fast.

There is an airdrop coming which could keep the price getting higher and higher.

ASTER is not on Binance yet. Listing won't take long seeing CZ posting about it.

This is my ref link: <https://www.asterdex.com/en/futures/v1/BTCUSDT?ref=90EC87>

Registering using my link would be appreciated.

Would honestly recommend checking it out. Bought some APX and most likely going to buy more once I've done more research.

Seems like a great speculation opportunity.

Price when thread was created: \$1.53 per ASTER

The website has some issues and is a bit slow. I got the same error sometimes.

But if you refresh it is loading normally.

Price as of now is \$1.81 BTW.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
