Thread: [Looking to buy a proven money-making method/niche + open to partnership in innovative](#)

Adeakin - September 23, 2025, 10:13 am

Hello,

If the topic is in the wrong section, I apologize and ask for it to be moved, but this is my first day here :))

I am from Poland and I am interested in purchasing a proven and effective method/niche/strategy that genuinely allows making money. I am not limiting myself to one specific area or industry – the important thing is that the method is tested and actually works.

? I am only looking for serious, verified, and effective offers – regardless of the money-making category.

? I have investment funds available that I am ready to allocate to an interesting project/method, provided it truly has the potential to generate profit.

Additionally, I am open to a partnership – if someone is looking for a business partner to realize an interesting, innovative, and promising project, I am happy to consider such cooperation.

? If you are interested, please contact me via private message here on the forum.

Best regards, and I look forward to concrete proposals.

Is there really no one here worthy of selling a method that can make money?

grahammiranda13 - October 6, 2025, 5:06 am

I am not trying to be negative and I promise I say this as a super kind person. I used to follow purchased methods (I paid over 300 euros over the course of 5 years). Those methods are just random stuff. If someone is making millions or 10k a day they won't spend their time writing a 56 pages book and selling it for 29\$. The best methods are kept a secret.

Did you got something ? I am looking for it too

I've been there done that and you are 1000% true. Nobody that is actually making money will sell you a method for like 30\$.

There are some free methods though! Do you play games on your phone?

Click my signature, sign up, test some apps and get paid. Earned about 300\$+ so far.. Its not a lot but its money and free!

It's hardly free money. But at least unlike when you use most smartphone apps you're being paid for your personal data and time.

At the end of the day, people can decide for themselves if it's worth their time. I'm just sharing something that worked for me and helped me earn a few hundred extra bucks in my spare time.

And hey, at least I'm contributing something useful for free — not acting like a free-loader expecting to get rich off a free method ?

Icey. - December 5, 2025, 12:08 pm

I'm making 1-2k per day and some times even more. made like 150k in 3 months and wouldn't mind talking about a partnership.

Hit me up in DM and we can talk more about it.

I'm not selling you anything so you know. I can tell you exactly what i do and it wouldn't matter unless you got the right setup

can you PM me

I am looking to partner up and i have useful skills

SkilledMaster - December 7, 2025, 8:51 am

If you're fluent in the local language or English, I can offer you a method. If you have call with phone and software skills (I'll still help you for software field), I can partner with you for free. We split the profits of each delivery. This method allows you to network with businesses or brands and, by providing them with long-term service, you can earn a steady income, consistent with your efforts. PM me if you are interested

If you are able to get a few hundred sales on your Amazon Seller account I can make you 6 figures per year no problem as my partner. You can find some cheap item and sell it the same price you are paying to the customers and just drop ship it and build your account up fast and free. Selling cheap items dropshipped on amazon is actually more beneficial over all than 1 expensive thing anyways imo.

There's a convenient job that doesn't require a large capital investment: buying and selling Telegram accounts in bulk, in the form of session files, JSON files, and data. You can earn over \$1000 daily. I honestly didn't want to reveal the details, but if you're ready to become a partner, we'll develop an advanced bot for buying and selling accounts. I'll help you start earning \$1000 or more daily, and then we'll begin developing the bot.

Did you ever come across something that was working? I have wasted hundreds of dollars on "money making methods" over the years and none of them amounted to the claims that the sellers said. I have long stopped buying these things as someone else said if you are earning good money from a method then you have no reason to sell the method you would spend that time scaling the method.

That's not necessarily true because teaching a method is an additional income stream. But a lot of this stuff is free on YouTube anyway and what they do is give 80% of their method on Youtube and then keep 20% of what they do back for their course or channel. You have to put all the effort in and have the creativity for these methods to work. Being in early can also help. Trying things with no money to use for advertising or anything is not going to work and if you make the wrong marketing and advertising and niche choices it won't work. You have to be sure what you have is something that will sell.
