Welcome to our APK bot shop .This service specializes in preparing your Android APK for deployment. Simply provide your application file, and our technical team will handle the complex processing. This includes cloaking the APK, concealing payloads, and crypting the code to enhance its durability. Once we complete this work, you can monitor your control panel as it begins receiving connections. The process is designed for you to submit your file and await results without further technical effort required on your part.

Price :

\$500 - 50 Mix bots
\$1000 - 110 Mix bots
\$2000 - 250 Mix bots

Custom Target - Contact me

Payment: Cryptocurrency

TOS:

- Make sure your APK is connecting back to your panel
 - _ You will get all bot within 24-72 hrs depending on the volume
 - This is for educational Purpose
- [contract=tid]Start Contract[/contract]

Hello,

could you explain in a little more detail? Is this service available for cryptocurrency? Or for any other topic? You can send me a private message here.
