This trader turned \$6.8K into \$1.5M by using a high-risk strategy: Here's how

By deploying a bot on a perpetuals exchange, the trader scaled \$6,800 into \$1.5 million through maker rebates and microstructure precision.

I read the article, some very high end trading of perpetual futures on SOL markets.

Way over my head, I don't touch that level. He had a \$200k bank to work with.

Remember guys... There are also many people who have turned millions into thousands.

Invest & research at your own risk and peril.
