Thread: [Guaranteed Interview resume AI HACKING service](#)

Brasil - September 25, 2025, 12:49 pm

I know you guys on HF need to get a job, so I have made a service just for you which is 100% legit. This is not a resume-writing service. This is a resume hacking service.

Boost Your Resume Visibility!

Hack the crappy AI processing systems on job boards!

Why Choose This Service? More human reads

More interviews

Better success rate

Higher income

Works in any industry

Pricing Basic: \$15 – Basic boost. Give you a solid, fresh payload to hack the AI systems.

Custom: \$25 – Bring Your Own Prompt boost. Better if you have your own prompt you want.

Guaranteed Interview: \$100 - highly customized boost for a target market. Interview GUARANTEE.

Assistance getting a resume together if you don't have one or have a bad one.

How It Works

1. Upload your resume (PDF format).
2. The program inserts invisible content for AI processing systems to read which recruiter's don't see. There is a small chance that a savvy recruiter could technically see it.
3. You get a resume that AIs let through and humans actually read.

"Your resume deserves to be read by a human"

Ready to get a goddamn job?

[contract=tid]Start Contract[/contract]

Note: This service is designed to ethically enhance visibility. No false claims, just more recruiter eyes on your resume. Interview GUARANTEE: With this pay tier, if you don't get at least one interview after 500 applications, you will be refunded the entire cost. I offer this at my sole discretion.

Huh, interesting.

That is bascially what I use to do this yes. I never get in contact with recruiters via resume applications without it. You're right: if you get busted it does hurt your credibility. I'd rather have my credibility hurt a bit and get seen than never have a human see my stuff.
