Bitcoin traders see \$110K CME gap dip next as BTC price gains 1.5%

Bitcoin hit \$114,000 at Monday's Wall Street open, but a CME gap made traders cautious, instead expecting a BTC price correction to \$110,000.

The Joker - October 2, 2025, 4:19 am

Looks like traders are watching the CME gap closely. Could be a small dip before BTC moves higher again.

Yanix - October 2, 2025, 5:49 am

Bitcoin's rally is strong, but gaps often get filled fast. Short-term corrections are part of the game. Staying calm during volatility is crucial.

Fish - October 7, 2025, 5:47 am

This is just the start, Bitcoin is just going up

DAL-SHA - October 7, 2025, 7:57 am

BTC popping off at \$114K? Love to see it—but that pesky \$110K CME gap is the buzzkill in the room. Traders eyeing it like, "what goes up might gap down." ??
