Now i know theres no sure fire way to make money fast but is there anything even remotely close? Running low on funds and i will sacrifice them if it means theres a chance i can make good money back and quick. I have very limited time.

Thanks in advance.

I only know on method in 2025 that is currently still working.

PM me if you would like.

It involves downloading apps, getting to a certain level and getting paid that way.
Sort of an app tester kind of thing!

And I've been paid 250-300\$ so far on this website.

Nice recommendation. QA testing is a valid way to make money online...

OP - Be careful with those people asking you to PM them. They are not known here on the forums yet.

I always struggle with these threads. There is no go-to way to make a ton of money online, overnight, guaranteed...

Do you have any marketable skills?

You could also try looking into CPA. Cost Per Action.
