Surprised no one made a thread about this. Did you buy it and what did you think of it? It's so good!

Exactly, i dont understand why they keep going higher and higher, its one of the so called "quadruple A games". Back in the day you could get the most entertaining and fun games for max 20\$ with some luck just 5\$ in a sale lol

Everything going up in price now

I watched a couple of streamers play it, but as I mentioned on another thread, it's just not my kind of game nowadays. If I ever get the itch for something like this, I'd probably just hope on a Resident Evil game.

I had seen the trailer for it and the verdict is 50-50 amongst old time series fans. Not gonna buy it :/ but maybe will watch a playthrough.

2 is the best, in my opinion as well. 1 started it, but 2 cemented the franchise into the minds of
everyone. And yeah, I think I saw that one trailer where the protagonist was fighting with a pipe or
some object, felt a bit arcadey but otherwise the atmosphere is looking very dark and atmospheric.
