Enter the lottery: <https://hackforums.net/lottery.php?action=view&lotid=51>

1 byte tickets.

Over 400 bytes to win, but more when you enter, because you WILL enter.

Because you love lotteries. Because you love Oktoberfest. Because you love me.

Go enter. ?

Technically it ends 4 November, so you have all of Oktoberfest to enter and we'll celebrate the winner 3 days later. ?

DemonAsylum - October 1, 2025, 6:36 pm

I'd just like to formally announce that while I already had 100 bytes in there, I have now so generously put in 1 byte more. You're welcome to whoever ends up winning.

oRequiem - October 1, 2025, 6:37 pm

I'm not much of a gambler and not exactly a lucky person so ?

Just 1 byte. That's all we need from you. ?

I did have one where someone won like 8000 bytes from 1 ticket. WORTH IT.

Deany - October 1, 2025, 6:40 pm

No sorry I need my bytes for sportbook

You never buy my lotteries and it makes me sad. Just one ticket?

Well, you got that from the reply, so I essentially gave you the opportunity to get it. So, you can use that ONE.

Even though I see you did 20. Thank you kindly!

Well you're sitting on 50k bytes atm. Idk what your progress for that is at currently, but I figure a few bets tops even starting from 0% and you got that ?

...If you win the bets required to put 100k in total on the line of course ?

Have I ever done that? I have not.

You trick yourself by losing out on 2 free bytes.

I put 0 in because I'd rather bet all 100k in 1 go just for the award

That would be ideal. You have to get to 100k first though and think about how much closer winning this lotto would get you!

Really though, couldn't you just slam your 50k on a heavy favorite 2 times and then you get it? That actually isn't a bad idea.

500 in the pot.

Imagine putting in 1 bytes & ending up winning 400K That's be crazy odds lol.

Not that that would ever happen to me.

One BIG bet to win it all. That's a strategy!

I started with 35k, and just did 5k bets. I needed to win half to keep it going, and it worked.
